Braille Alphabet Chart for World Braille Day 2027

Mon., Jan. 4, 2027: dot patterns for each letter, a visual chart, not tactile braille

Monday

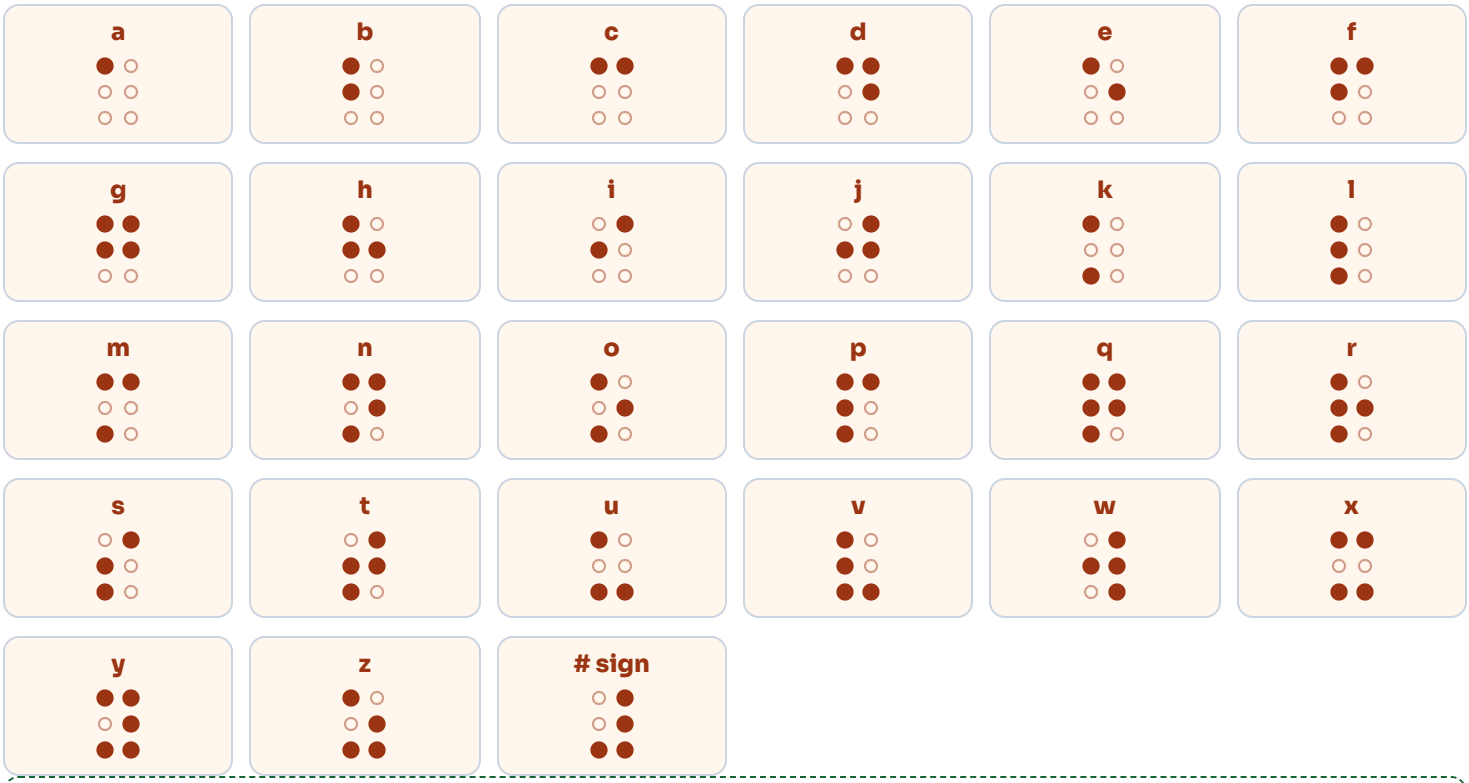

January 4, 2027

World Braille Day

Facts

- The United Nations has marked World Braille Day since 2019 to raise awareness of braille.
- A braille cell has six dots that can form 63 different patterns, says the Library of Congress.
- Louis Braille was born in Coupvray, near Paris, on Jan. 4, 1809.

BRAILLE ALPHABET (FILLED DOTS ARE THE CELL'S DOTS)

Not yet confirmed

2027 World Braille Day theme or events: no 2027 theme or event was in our sources

Letters I have learned, and a word to spell in braille
