## HOW TO USE A STENCIL

1. Print the page at 100% (Actual size) on US Letter paper. The 2-inch bar on each page checks the scale.
2. An adult cuts the lid and scoops out the seeds; children can scoop with a spoon.
3. Tape the stencil to the smoothest side. Make small folds so the paper lies flat on the curve.
4. Poke holes about 1/8 inch apart along every line with a pushpin or poking tool, or trace firmly with a ballpoint pen.
5. Remove the paper, connect the dots with a washable marker, then an adult carves out the black areas.
6. Light it with a battery-operated light instead of a candle.

## MY PUMPKINS AND DESIGNS

Safety: U.S. Consumer Product Safety Commission (CPSC) Halloween tips: adults do the carving, children can scoop and trace, and battery-operated lights are safer than candles. Designs original to Fresh Calendars, free for personal and classroom use.

**Cut out the black areas**

Keep the white parts of the pumpkin. The gray dashed line shows the pumpkin's edge and stem; do not cut it.

**Print at 100% (Actual size)**

This bar should measure 2 inches:

For a small pumpkin, print smaller and check the cuts stay apart.

**Tip**

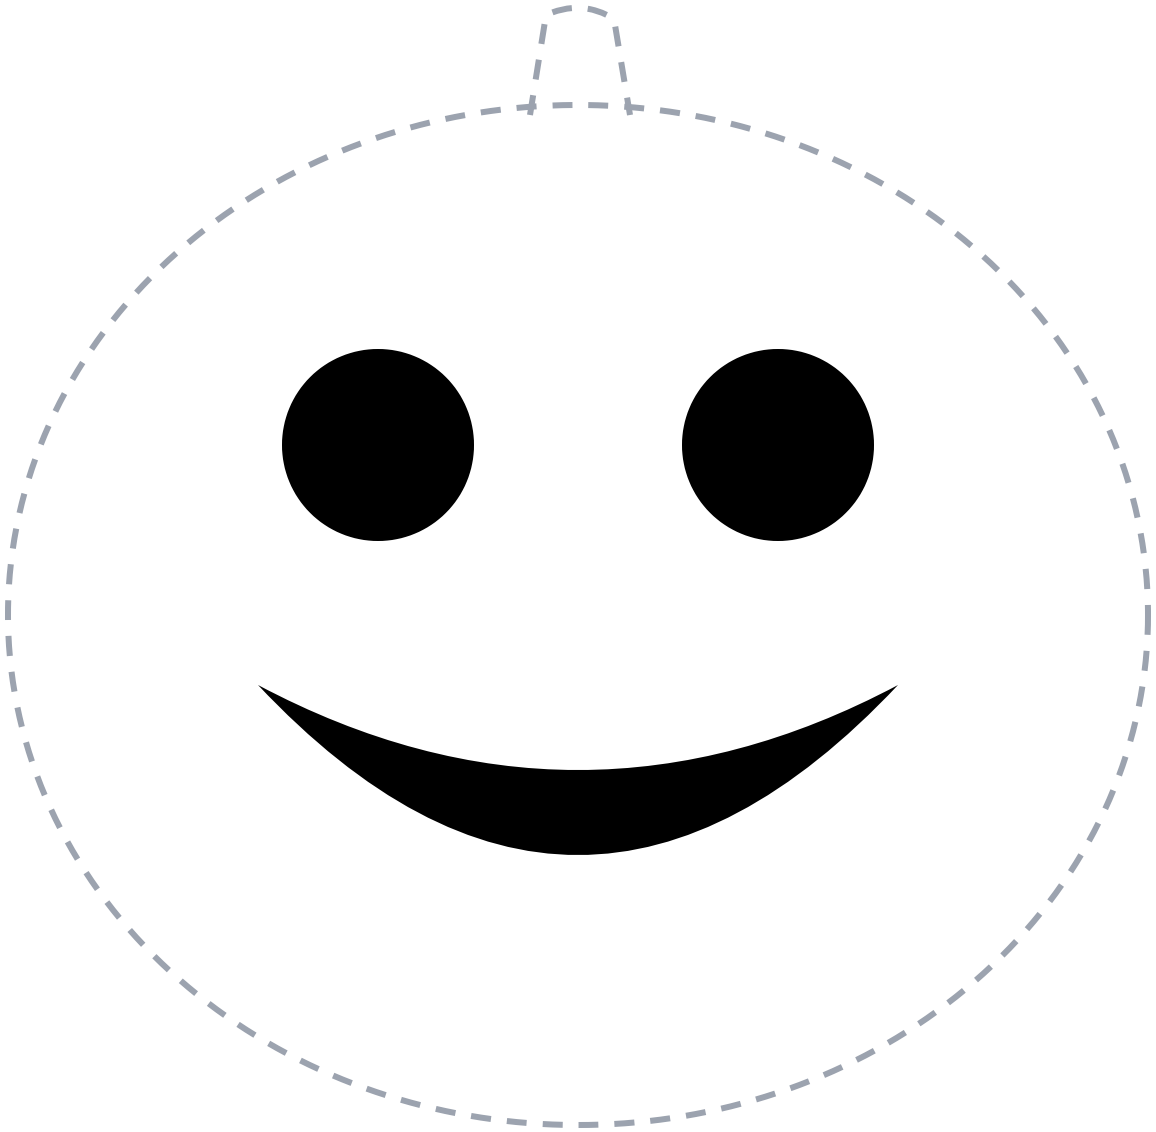

Cut the two square teeth last so the mouth keeps its strength while you work. Tape the sheet on, poke dots along the lines, then remove it and carve. An adult does the cutting.
