The U.S. Postal Service advises mailing a ballot at least one week before it is due. In June 2026, the U.S. Supreme Court held in Watson v. Republican National Committee that federal law does not bar states from counting ballots that arrive after Election Day. Kansas's three-day grace period is in effect under a court injunction. Military and overseas voters have separate rules. Sources: state election codes as compiled by Ballotpedia; state election offices. Confirm with your county.
